

ND A HALF

Progress of Alberta For This Year

By J. L. IRWIN

Statistician, Dept. of Lands and Mines, Govt. of the Province of Alberta

The last article on the subject of Alberta's progress in oil development was published by the Department of Lands and Mines on June 30, 1938, at the close of the half year.

Since then many requests for additional information regarding developments have been received. Due principally to rapid and constant changes appearing almost from day to day, it has been exceedingly difficult to publish anything further which might not become almost immediately outdated. In compliance, however, with these requests, a brief summary of developments during the first nine months of this year is herein given.

NUMBER OF WELLS

By the end of September Alberta had a total of 123 producing oil wells. Of this number 113 were in Turner Valley and the remainder in other fields.

The number in the Valley was divided as follows:

Crude oil wells 59
Crude oil recovered above
the limestone 4
Naphtha producers from
the limestone 50

Total 113

Note: In addition to this total number of wells were closed in.

Wells completed this year in Turner Valley total 27 and new wells not drilling in this area total 21 with an additional 14 drilling in other fields.

Within the next few weeks the major portion of the drilling will most probably be completed.

In other Alberta fields many interesting tests are now in operation amongst which the following are mentioned: The Petro-Canada tests near the Alberta-British Columbia boundary in the Peace River country; the Home Brazeau and Ham River wells in the Brazeau area; the Banner Well in the Highwood area; the Alberta tests near the test at Barberry, 35 miles east of Olds; the Alberta tests near Clearwater River, 20 miles to the south east of the Ham River well; the test at Steveston, 70 miles north-west of the Highwood area; the test at Medicine Hat, two wells near Lundbreck in the Crowfoot Pass area and one east of Milk River, close to the international boundary. At Vermilion new deepening tests are being drilled for gas. Fields which have already been productive of oil since 1937 are enlarging their operations include Del Bonita in the international boundary area; Moose Dome, 50 miles west of Calgary; Taber, east of Lethbridge and Ribstone in the 40th district.

OIL PRODUCTION TOTALS

In the last published article two production tables were given. One, in annual totals from 1914 to 1937, revealed a grand total for the 23 years period of 15,722,372 barrels. The other was a comparative monthly production statement for 1936 and 1937 showing monthly and yearly increases. A repetition of this table, with the addition of another giving the totals for the first 8 months of 1937 and 1938, are as follows:

	1936	1937	Increase
Month	Barrels	Barrels	Barrels
Jan.	105,171	127,977	22,806
Feb.	106,077	140,515	34,438

THE SNAPSHOT CHILD

SNAPSHOTS FROM THE AIR

When you say, "We went 'way above the clouds," why not have a snapshot to prove it?

THOSE who make air voyages without a camera miss a part of the thrill. You do not need an aerial camera to obtain pictures from airplanes. An ordinary camera will get interesting pictures right through the window which you look through as you fly, and make you a picture story of your trip that no end of verbal description

can tell so vividly.

Make a few snaps about the air-pottery of your "plane" and then, unless you have very short speeds, wait before you shut again till you are up at least 1,000 feet. Naturally the higher the "plane" is travelling the less rapidly will the earth slip by and snapshots showing the land can be made more easily. The most interesting views are taken from the "plane" and contrast in the landscape, as when flying over lakes, rivers and towns.

Realism and enhances the feeling of height. It identifies the picture scene as having been made from the actual plane.

Altogether, as on the ground, a color camera helps in bringing out details in the distant landscape. Larger stop openings will then be required—the size of the opening depending upon the depth of the color of the filter.

Color can be taken pictures through the glass in the windows all right, but is especially clear, safety glass, and

If your camera's of the focusing type, set it at the "infinity" mark, and, on a clear, brilliant day, stop down the lens to its smallest aperture at a reasonably rapid shutter speed. When the sun is not so bright, stop down the lens one or two stops. The fastest shutter speed should be employed with the average camera; with the faster shutter speed pictures from airplanes can be made at less than 1/1000 of a second. The most versatile lens folding cameras and those of the box type, the second or smaller lens element being retracted, can be used in bright sunlight to make crisply good pictures can be made at 1/1000 of a second.

Don't forget to take plenty of film because there is nothing so prone to miscommunication and helplessness as some unheeded interesting picture goes astray.

JOHN VAN GUILDER
108

If you are fortunate enough to fly on a brilliant day when there are groups of those light, cottony cumulus clouds, and are gliding along well above them, make snap shots when you pass over rifts through which the landscape can be seen. To include a wheel of the "plane," as in the picture above, adds realism and enhances the feeling of height. It identifies the picture as having been made from the air.

Also, on the ground, a color filter helps in bringing out clouds and details in the distant landscape. Larger stop openings will then be required—the size of the opening depends on the depth of the color of the filter.

Yes, you can take pictures through the glass in the windows all right. It is especially clear, safety glass, and on commercial planes is kept clean but don't shoot from the inside of the window ledge or any part of the plane, since even slight vibration will affect the sharpness of the pictures. Also, don't shoot across the aisle, since the constant swinging of the overhead storage bins and the large slide motors, as the heat waves make register on the film and blur the pictures.

And don't forget to take plenty of film because there is nothing so provoking as to find yourself out of ammunition and helpless as some unexpectedly interesting picture goes slipping by beneath you.

Former Governor of Bengal, who is mentioned as a likely appointee to the British Cabinet as new Minister of Volunteer Defense Work.

Paragraphs of Personal Interest

Jack Dirom of Clairmont district left for Edmonton Wednesday morning on a business trip. He was accompanied by Miss Margaret Dickson, who will resume her duties as nurse at the Royal Alexandra Hospital, and also by Mrs. Leslie Dickson.

D. J. Macdonald, field supervisor for the Soldier Settlement, returned to Grande Prairie on Friday last, coming from Edmonton, where he spent five weeks working out of the central office in the area east of the city.

Frank Donald left on a business trip to Edmonton on Tuesday.

Bill Reasbeck, Mayor of Dawson Creek, was a passenger on Tuesday's train, en route home from a trip to Calgary and Edmonton.

Fred Willman of the Wanham district was a visitor in Grande Prairie Wednesday.

H. S. Day, district surveyor, and his assistant, C. W. Lepp, accompanied by their cook, T. J. Starkey, spent a short time in Grande Prairie on Thursday en route from the Teepee Creek to East of the Smoky.

Dr. T. Powell of Calgary, superintendent of missions for the United Church, was a passenger on Friday's train, en route to the Black.

R. M. Bickell of the DeBolt district, who was in the Grande Prairie Municipal Hospital for 22 days, left for home on Saturday. In conversation with The Tribune reporter Mr. Bickell said that he has a bad leg that doesn't know enough to behave itself.

Arthur Sherman, well known fire ranger and trapper, was a week-end visitor to Grande Prairie. Arthur left on Tuesday for his trap lines south-west of here.

A. Nordstrom, Rupert Perry and G. L. Craig, of the Beaver Lodge district, spent a few hours in Grande Prairie on Monday.

Jim Evans and daughter, Jessie, left on Tuesday's train to spend a week at the Capital City.

Born to Mr. and Mrs. Jeffcoat, on Wednesday afternoon, at their home on Third Avenue North, a daughter.

Mr. Romeo Pronovost and Mr. Sigurd Sorken of North Kleskun were visitors in Grande Prairie on Monday.

BORN AT MUNICIPAL HOSPITAL

To Mr. and Mrs. Rudolph Crocken, Clairmont, October 27, a girl.

To Mr. and Mrs. Fred Monro, Glen Leslie, October 30, a boy.

To Mr. and Mrs. Ernie Ford, Grande Prairie, October 30, a boy.

To Mr. and Mrs. Marion White, Sexsmith, October 30, a boy.

To Mr. and Mrs. George Lathwell, Sexsmith, November 1, a boy.

To Mr. and Mrs. Anthony J. Kramps, Crooked Creek, November 1, a boy.

To Mr. and Mrs. Robt. Wood, Hythe, November 3, a boy.

BORN AT BEAVER LODGE SUB-HOSPITAL

To Mr. and Mrs. I. Baldeen of Beaver Lodge, October 12, a boy.

To Mr. and Mrs. G. N. Parry of Beaver Lodge, October 25, a girl.

To Mr. and Mrs. J. A. Hommy, Hythe, October 28, a girl.

To Mr. and Mrs. I. Roninos, Hinton Trail, November 1, a boy.

To Mr. and Mrs. J. W. Cox, Beaver Lodge, November 2, a girl.

Poppy Day On Sat., Nov. 5th

The public are reminded that Saturday, November 5, is Poppy Day. Brigades of early four young ladies will be on the street of Grande Prairie, so have the change handy so as not to delay this energetic quartette.

The money from the sale of poppies goes to the disabled veterans.

In every town in the Peace River and all over Canada poppies will be sold on this date to assist those who were disabled on the battlefields of Europe in fighting for the principles of democracy.

A hilarious time at a Halloween party at the Charters home on Monday evening.

Mrs. J. E. Thomson had a few friends in to tea on Friday in honor of Mrs. Deaton.

Mr. Freebury, on receiving sudden news of the death of his wife, left for Edmonton on Tuesday evening. During his absence Mrs. Melness is taking care of the household.

Miss Beath and Mrs. H. Newton visited the McNaughton family on Wednesday of last week.

Miss Mary Bayhen is visiting relatives at Fairview this week.

Mr. and Mrs. Alex. Campbell left for Edmonton on Friday's train. Mrs. Newton expects to leave here next week.

Christ Church A.Y.P.A. had a hard time party in the Speke Hall on Wednesday evening. It sure looked like pretty bad times, judging by their clothes, but there wasn't anything poor about the "eats."

The guests included Mrs. Macbeth, Mrs. Macbeth, and Central Relief trunks have obtained some astonishing results. However, they all had a good time in spite of their rags and tatters.

The small tots celebrated Halloween with parties in the form of a school on Monday afternoon at Montrose School, but from Grade V up they had a dress-up party at which prizes and games and lots of fun. The High School students had a costume party at which prizes that night too. Judging by hearsay, everyone had a jolly time.

Mrs. Walker and her daughter, Doris, of Beaver Lodge, had a lot of fun around their one-time stamping grounds in Grande Prairie on Saturday, after visiting the Speke River.

The teachers and officers of St. Paul's Church C.G.I.T. members met for their monthly meeting at the Manse on Wednesday evening.

Big Attendance At C.G.I.T. Rally At Beaver Lodge

Seven carloads of Christ Church and St. Paul's Church C.G.I.T. members were taken to Beaver Lodge on Saturday to join in the rally there. The Beaver Lodge group had drawn up a program of good fun and provided a grand lunch for the guests. A hundred and sixty-two girls were present, representatives from various districts in the Spirit River to Peace Coulee.

Games were led by Kay Smith of Beaver Lodge and the singing was by Miss Jean Huston of Grande Prairie. There were ten very interesting discussion groups, each one reporting its findings to the rest after supper.

As a part of the program the Beaver Lodge C.G.I.T. group very ably gave a demonstration of their opening ceremony and business session of a regular weekly meeting.

Five talks were given by girls from various towns, telling what they believed the C.G.I.T. purpose should mean to girls.

Just before supper the members enjoyed a hilarious "Scavenger Hunt."

Mrs. A. Willis Cann gave a helpful paper for the leaders who attended the rally, and this was followed by a discussion.

The theme of the rally was "Training for Peace." This was carried out in the vesper service, conducted by Mrs. W. T. Fox.

Singing of "Taps" brought to a conclusion a very successful and enjoyable rally.

WESTVALE NEWS

DOUBLE WEDDING—AND THEN SOME

WESTVALE, Oct. 31.—In the fall of 1937 Mr. and Mrs. Ernest Mumby came from Saskatchewan, bought and made their home on the Nels Lake farm. Two daughters accompanied them, and two more joined the family last summer.

The rapid growth of four new houses in the district, and the equipment for the same, which was a change of residence by four brothers, has caused many a smile, joke and anecdote as to what it was going to happen.

The Rev. Robert E. Parlee, who had done twelve years pastoral work in northern Saskatchewan, had joined his parents and family here and built a new home, which was the parsonage. He wedded the eldest, Miss Edith Mumby, on Saturday afternoon, the 29th inst. at 4 p.m., there gathered at the parsonage some friends and relatives, beside the contracting parties.

The double wedding of the Rev. Robert E. Parlee to Edith Mumby, twin daughters of short Mrs. E. Mumby, and two more of the sons of Mr. and Mrs. Wm. N. Parlee, the eldest brother, Robert, the minister officiating. The Mumby home and enjoyed a wedding supper, a pleasant evening and some kindly good wishes and warm handshakes and best wishes for long and happy years.

Well! That accounts for three of

the daughters and three of the sons. Most of the fourth son and fourth daughter, Miss Ada. They were right there, observing the ceremony and later waiting upon table at the wedding supper; took our jokes and enquiries in good part, and though Sam and his house are ready and waiting, we didn't learn just when we will be asked to listen to the preacher tell us our duty to God, our neighbors and society in general, and to the community of Saskatchewan and Nussel, Manitoba, papers please copy.

"Bolivia" (Continued from Page One)

000,000 pounds sterling during the past 40 years. The country also outstrips any other country in the production of tin and bismuth.

La Paz, the capital, has the highest altitude in the world.

Continuing, the speaker observed that history takes us back only to 1185, but behind that centuries of high civilization lie, antedating the Inca dynasty by hundreds of years.

Finally the Spaniards settled in the country and exploited the natives. Today Spaniards rule the country, a dictator form of government.

Bolivia and Paraguay are the only two inland republics in America. Chile snatched Bolivia's coast line, but recently Bolivia was granted a corridor leading from the river Parana to the Plata, and then to the sea.

Describing the country, Mrs. Macbeth said that the country was a place of color in flowers and richly colored birds. In the highlands Indians wear costumes made from llama and alpaca wool woven by

The speaker then briefly referred to the nation's habit of chewing coca (not cocaine). Coca explained Mrs. Macbeth, is extensively grown and mixed with potatoes to make a native drink chicha, a beverage made by pulverizing coca into a mash and allowing it to ferment. It is very potent, declared the speaker.

Turning again to the description of the country, Mrs. Macbeth stated that the Bolivia plateau is the longest and highest and widest in the world.

In the highlands cattle are seldom raised. Here, however, is the llama, which provides meat, milk, wool, and draws supplies. Like its cousin, the alpaca, the llama has no affection for its master. It carries a load of 100 pounds and walks 15 miles a day.

The llama is a very useful animal for fuel. The newest apartment building in La Paz is electrically equipped. There is no heating except from one small grate, but it fringes nearly every night in the highlands, summer and winter.

The speaker went on to explain that Sucre is the legal capital of Bolivia. The President lives at Sucre, but the government is in La Paz. The city has 200,000 people, but has no mail boxes and no post-office. The city has no mail, so there being no substitutions, to post and collect mail, also to buy stamps.

Owing to altitude, observed the speaker, it takes a long time to heal, and open wounds a long time to heal, and insect bites develop into small sores. There are many insects everywhere.

The majority of the Indians are sunburnt and suspicious, and are the most accomplished thieves in the world. Money is so scarce that a good deal of the business is done by barter. The standard of living is very low.

Mrs. Macbeth took her audience on a side trip to Lima, capital of Peru, which is a magnificent city. Use of lantern slides added greatly to the most interesting lecture.

"I want to thank you all," said Mrs. Macbeth, for her excellent lecture, and to others who assisted.

CEGIP Is (Continued from Page One)

country and northern British Columbia. I salute you.

"If we have brought you some worthwhile entertainment and helped make your lives happier during the past year, we have accomplished something worthwhile.

"Before I go, may I quote you a few lines? I do not remember the name of the author, but they run like this:

"So many gods—so many creeds, So many ways that wind and wind, When all this day of being kind Is all this sad world needs."

"The object of this evening is that you have helped so generously to make this birthday party a success. Thank you—everyone of you. Good night, everyone, and good luck."

Canadian Legion's Part in Program

The Canadian Legion had a large spot on the program. J. W. Pickard made the presentation of this evening's celebration with a few remarks appropriate to the occasion.

Dr. O'Brien in a short speech referred to world conditions and the happy ending of the recent crisis which had threatened to become a world war.

Songs were sung by W. Storm, Dr. Carlisle and J. W. Pickard. Lively choruses added to the pleasure provided by this delightful part of the evening's program.

Many Short Speeches Given

Speeches were delivered by George Allford of Edmonton, a director of the Northern Broadcasting Company, operator of CEGIP.

Mr. A. B. Harris, president of the Grande Prairie Board of Trade, I. Nelson, president of the Retail Merchants Association; Jim Macdonald, representing the residents.

The following musical numbers were interspersed among the various

"Rudy" Crocken Of Clairmont On Mend From Car Accident

The many friends of "Rudy" Crocken will be pleased to learn that he is recovering from a car accident.

"Rudy" was on the way to Grande Prairie from Clairmont on Friday evening, October 27, when his car evidently got out of control and smashed, knocking him unconscious.

He was picked up by "Curly" Pittman and rushed to the Grande Prairie Municipal Hospital, where an examination by Dr. O'Brien and Dr. Little revealed that his right arm was broken and he was suffering from body and head injuries.

It is understood that "Rudy" will be confined to the hospital for some time.

Night Hawks Are Away To Good Start

The Night Hawks, organized last year, have broadcast many clever

They have given a tremendous lot of work and time in preparing these original programs and the Night Hawks are giving of their time and talents for the Christmas Cheer Fund, which is a fund for the benefit of children who would otherwise not be visited by Santa Claus.

It is understood that the company is giving of their time and talents for the Christmas Cheer Fund, which is a fund for the benefit of children who would otherwise not be visited by Santa Claus.

LATEST NEWS FLASHES

VIENNA, Nov. 3.—Foreign Minister von Rintelen, German and Count Ciano of Italy, it was learned Thursday, have assured the Czechoslovak Foreign Minister, Dr. Benes, that Germany and Italy are ready to guarantee Czechoslovakia's new frontiers.

VIENNA, Nov. 3.—German and Italian mediators, who were mapping the boundaries of Czechoslovakia, awarding Hungary the major portion of the territory she claimed from the shrinking republic.

BUDAPEST, Nov. 3.—Informed sources believed Thursday Hungary would give economic concessions to Germany and Italy to show appreciation for their help in getting a large slice of Czechoslovakia.

PRAGUE, Nov. 3.—Czechoslovakia Wednesday night semi-officially protested terms of the Vienna agreement awarding Hungary a large slice of territory to Hungary as "a crime of injustice which the great nations have committed against the Czechoslovak national radio said in a broadcast shortly after announcement of the Vienna agreement, a decision of the conference is extremely painful, cruel and unjustified of putting into effect the Anglo-Italian agreement and British recognition of the conquest of Ethiopia by Italy."

TOKIO, Nov. 3.—General revision of international relations in the Far East was demanded Thursday by Premier Konoze in a speech broadcast to the nation. He said it was Japan's intention to introduce "a new system of peace based on justice." Prime Minister Konoze acknowledged Japan's gratitude to Germany and Italy and said that together they would "build in the world a new order founded on our common ideology." Prime Minister Konoze said Japan intended to break all the "fetters placed upon independence and peace" in the Far East by the nations of western imperialism in the last century.

CROMER, Norfolk, Nov. 3.—The Spanish insurgent vessel shellfish and sank the Spanish Government freighter Cantabria in the North Sea Wednesday night. British territorial waters were identified later as the motor vessel Nadir. The Nadir shelled the Cantabria for about three hours when the Cantabria defied an order to surrender. Finally the battered bulk caught fire. The crew and passengers were taken off by coastal lifeboats.

The captain said he knew of 14 casualties, but said the Cantabria sank just after he left the ship.

B. C. POULTRY BREEDERS SUPPLY FOUNDATION STOCK AT PROFITABLE PRICES

So satisfactory has a shipment of record of performance poultry from Canada to British Guiana made last week, that the Department of Agriculture of that country recently placed another order through the B.C. Poultry Breeders' Supply Foundation. This recent order is for eight white Leghorn pullets and two males and Rhode Island Red pullets and two males. The birds are now en route to British Guiana. The shipment was purchased from two British Columbia poultry breeders. The satisfactory record of performance was paid for the pullets and \$25 each for the males, f.o.b. Vancouver. The birds will be shipped by a ship of the British Guiana stock to be raised in Guiana, where poultry raising is becoming an increasingly important industry.

During the day and night practically every business man in Grande Prairie visited the studio and offered congratulations, with the result that the staff were kept on their toes entertaining the large number of visitors, who were shown every courtesy.

"Northern Lights" Bazaar Proved Big Success

The famous "Northern Lights" Bazaar, held last Friday and Saturday in the L.O.O.F. Hall, turned out to be a huge success.

After providing the community with lots of fun "ringing" his neck and winning many prizes, the bazaar himself was won by W. E. Sekora.

The silk and wool quilt went to Miss Clara Shaver, while Mrs. Russell won the three-story Christmas cake. Mrs. Krystal of Clairmont carried off (figuratively speaking) the ton of coal.

EDMONTON LIVE STOCK. EDMONTON, Nov. 3.—Cattle prices holding barely steady. Up to noon off-truck bacons \$7.60.

Australia's first factory for making Axminster carpets is being built.

PROPOSAL FOR BRITISH TEST MOBILIZATION TO BE HELD ANNUALLY FOR EMERGENCY

A plan for an annual test of mobilization of Britain's civilian population to meet any emergency of the future has been placed before the committee of imperial defence by the War Office, Brig.-Gen. A. C. Critchley.

The scheme is based on precautionary measures evolved by the sports promoter 18 months ago and applied to his vast enterprises during the recent crisis.

At that time a large number of his employees were promptly released for their work with the Territorial and London barrage, and the air raids precautions organization, but prearranged programs were carried out without a hitch by the immediate introduction of a shadow plan.

General Critchley now proposed that the civilian population should be organized and called up for a test drill next summer. He suggests a trial evacuation of congested areas, in the meaning of all branches of the defence service, and mobilization on the basis of a national register with a minimum of disturbance in industry.
